

18 April 2013

Dear Pawel,

On behalf of all the members and the National Executive of the ACS, heartiest congratulations on receiving the prestigious International Innovation Award at NAB in Las Vegas.

It was thoroughly deserved, and more than appropriate that your work in this specialised field was recognized with such significance. I have it on good authority that your DeepX and 3Deep underwater rigs outshone the other manufacturers.

I also congratulate you on your dedication, your vision and your persistence.

You have achieved a great deal with these revolutionary designs for underwater filming, and we all wish you continued success.

Having Tasmanian blood coursing through my veins, it was great to read that Tasmania is considered as "being the world's centre of camera equipment innovation." I couldn't agree more!

Once again congratulations, and if you're intending on attending the National Awards in Canberra on May 25, I look forward to seeing you there.

Best regards

Ron Johanson ACS
